### Becky Sexton Recognized by Worldwide Branding for Excellence in Agricultural Services

*Ms. Sexton is passionate about educating farmers through Twin Lakes Environmental Services, LLC*

ROCKWELL CITY, IA, October 26, 2016, Becky Sexton, Owner of Twin Lakes Environmental Services, LLC, has been recognized for showing dedication, leadership and excellence in agricultural services.

Worldwide Branding, the world's leading international personal branding organization, is proud to endorse the notable professional efforts and accomplishments of Becky Sexton, Owner. A member in good standing, Ms. Sexton parlays years of experience into her professional network, and has been noted for achievements, leadership abilities, and the credentials she has provided in association with her Worldwide Branding membership.

#### ***About Becky Sexton:***

As the owner of Twin Lakes Environmental Services, LLC, Ms. Sexton is proud to serve as a woman in the male-dominated field of agriculture. Though she has achieved great success in her work, she finds that the most challenging aspect of her career is getting people to understand that she knows what she is talking about, particularly when dealing with farmers who have tended their land for extended periods of time.

Ms. Sexton has had the desire to help farmers since she was a child. As the person who formed Twin Lakes Environmental Services, she has worked for over 15 years helping family farmers. In this role, her ultimate goal is to ensure that environmentally sound agricultural practices are used and that manure is used in compliance with all regulations. Becky believes the process has become more complicated than it needs to be, so she wants to simplify it and help clients understand what needs to be done.

Worldwide Branding has added Ms. Sexton to their distinguished Registry of Executives, Professionals and Entrepreneurs. While inclusion in Worldwide Branding is an honor, only small selections of members in each discipline are endorsed and promoted as leaders in their professional fields.
